***Allowable Subject Matter***

1. Claims 21-23, 25-45, 49 and 50 are allowable over prior art.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter based on Applicant's Amendment filed on July 13, 2007:

As in claim 21, the prior art of record fails to teach or fairly suggest a method of controlling a servo operation having the following steps:

(a) determining a difference between a first synchronization reference signal included in the one header field and a second synchronization reference signal included in the another header field, wherein the determined difference between the first and second synchronization reference signals represents a radial tilt of the optical recording medium.

As in claim 49, the prior art of record fails to teach or fairly suggest a method of controlling a servo operation having the following steps:

(a) determining a difference between a VFO (Variable Frequency Oscillator) signal of a first header field and a VFO signal of a third header field, wherein the determined difference between the VFO signal of the first header field and

the VFO signal of the third header field represents a radial tilt of the optical recording medium.

As in claim 50, the prior art of record fails to teach or fairly suggest an apparatus for controlling a servo operation having the following feature:

(a) a signal detector to detect a difference between a first synchronization reference signal included in the first header field and a second synchronization reference signal included in the third header field, wherein the determined difference between the first and second synchronization reference signals represent a radial tilt of the optical recording medium.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Kim CHU whose telephone number is (571) 272-7585 between 9:30 am to 6:00 pm, Monday to Friday.
